Android Developer

Despre mine

Energetic and curiosity-driven Android developer with 6+ years of experience writing top-quality clean code for high-paced businesses. Eager to support Company in modernizing its world-class products and delivering an incredible user experience.

Experiența profesională

Android developer · Of4

Februarie 2022 - Prezent · 2 ani 8 luni

Medical Equipment Management System

Contributed to the development of an innovative management system for medical instruments, enhancing the efficiency of internal processes.

Implemented key features using CameraX and Zebra scanner to facilitate the identification and tracking of equipment.

Developed robust network interfaces with Retrofit and OkHttp, along with data parsing using GSON.

Wrote clean, maintainable code in Kotlin, applying the MVVM architecture.

Integrated RealmDB for efficient and secure local data management.

UK's Largest Vehicle Insurance:

Actively participated in the team responsible for developing the largest vehicle insurance (CASCO) application in the UK, contributing to its market expansion.

Implemented critical functionalities with Firebase and RxJava to improve performance and user experience.

Collaborated on network services integration using Retrofit, ensuring efficient server communication.

Programmed in Java and Kotlin, ensuring the efficient coexistence of both languages within the project.

Android Dev · Think Software ehf

Mai 2019 - Ianuarie 2022 · 2 ani 9 luni

- Developed native Android applications and frameworks using Kotlin.

- Defined and implemented robust app architectures and complex user interfaces.

- Working with third-party libraries and APIs.

- Offline storage, threading, offline database and performance tuning.
- Deal with different mobile screen sizes.
- Worked with BLE, beacons, and connected devices.

Android Developer · Simpals
Mai 2016 - Decembrie 2019 · 3 ani 8 luni

- Implemented features for various applications in Java and Kotlin.
- Work with outside data sources and API's
- Implement new technologies to increase development efficiency.

Assistant Lecturer · Technical University of Moldova
Septembrie 2015 - Mai 2016 · 8 luni

- Give feedback on lab assignments.
- Debug student code to help resolve syntactical and logical errors.

Android · EBS Integrator
Iulie 2015 - Mai 2016 · 11 luni

- Collaborate with cross-functional teams to define, design, and ship new features.
- Work on bug fixing and improving application performance.

Programator · MaxLab
August 2013 - Ianuarie 2014 · 6 luni

- 2D Unity Developer.
- Junior Android Developer.
