Backend / Fullstack Developer

Despre mine

Full Stack Developer with a strong background in computer science, now eager to transition into Backend Development. Passionate about creating innovative solutions and staying updated with the latest technology trends through continuous learning.

Effective team player who thrives in collaborative environments and enjoys taking on new challenges. Skilled at diving into cutting edge technologies to develop high-quality software solutions.

Looking forward to joining a dynamic and forward-thinking team to collaborate on impactful projects and contribute expertise to achieve outstanding results.

Experiența profesională

Full Stack Developer · MTEAM Shared Service Center at GRAFIT HOLDING

August 2021 - Martie 2024 · 2 ani 7 luni

- Contributed significantly to the development of both client-facing and internal projects.

- Provided comprehensive support for projects within trading.

- Implemented new full stack features aimed to the needs of internal tools of the company.

- Performed module refactoring operated on legacy codebases and integrated them with existing solutions.

- Analyzed and optimized existing modules, enhancing their performance, reducing load times, and improving overall system efficiency.

- Designed and implemented complex business logic for the application, ensuring seamless functionality and alignment with business requirements.

- Conducted thorough testing and debugging of the entire system, identifying and resolving issues to guarantee stability and reliability.

- Led the final stages of website development, overseeing design tweaks, functionality enhancements, and performance optimization to ensure a polished end product.

- Integrated APIs from major companies such as PayPal and eBay, enabling efficient and accurate tracking of product sales

and transactions.

- Automated processes for data collection, reducing manual effort and increasing accuracy and efficiency in data handling.

- Implemented automated data cleaning processes to maintain data integrity and quality within the system.

- Oversaw database migrations, ensuring data consistency and minimal downtime, and improved the existing migration system for better performance.

Competențe: ColdFusion Markup Language (CFML, JVM based), Lucee (JVM, based on Coldfusion), Microsoft SQL SERVER, C#, Entity Framework, HTML5, Cascading Style Sheets (CSS), Bootstrap 5, JavaScript, JQuery, AJAX
