iOS developer

Despre mine

I'm an iOS developer with 7 years of experience in developing using Objective-C and SWIFT.

In general, I use SWIFT.

In short, I'm a highly motivated, hardworking, and results-driven person, who always tries to achieve goals and results at work.

My goal as an iOS Developer is to apply my technical skills for search and implement the best solutions for business requirements.

I'm a good and dependable team member. I'm inspired to write clean, efficient, and reusable code.

- Framework development with full documentation creation
- Working on a banking application
- Implementation of background modes
- Video processing and streaming
- Online shopping and sales
- Mentoring, Scrum, goal orientation
- Good problem-solving and debugging skills (also legacy code)
- Producing comprehensive documentation for software project
- Own templates for the main application modules - network layer, coordinator, error handling, authorization, social networks, notifications, screen modules, etc.
