QA Automation Python

Despre mine

I am a dedicated professional passionate about software quality, with extensive manual testing and beginner-level automated testing experience.

Throughout my manual testing experience, I have effectively used development tools and testing instruments to identify and resolve errors, managed error tracking in Jira, assigned tasks, and monitored project progress.

I am proficient in Postman for API testing and understand client-server architecture and data transfer methods. My knowledge of HTML, CSS, and SQL enables me to analyze UI elements and execute database queries. I am experienced in GIT for version control and writing API specifications in YAML for Swagger.

In automation testing, I use Python for scripting, with experience in frontend testing with Selenium and backend automation with the Requests library. My initial knowledge of Docker and GitHub Actions helps me set up automated testing environments and CI/CD pipelines.

My goal is to enhance my automation testing skills to become proficient in this field.

Experiența profesională

QA Manual += Automation · Development Aid
Septembrie 2023 - Prezent · 1 an 1 lună

Performing manual tests for both front-end and backend to ensure product quality. Generating bug reports and actively contributing to product quality improvement.

I touched a bit on Automating of interface tests using Python and Selenium. Developing API specifications in YAML for Swagger and automating the API with the requests library.

QA Manual · Romark Code

Februarie 2022 - Iulie 2024 · 2 ani 5 luni

I helped familiarize the team with the work of the quality test engineer and the collective role in improving product quality. In addition, I actively participated in team and client meetings. Similarly, we conducted product testing using checklists and test

cases we created, promptly documenting issues identified in bug reports and ensuring proper functionality. All these efforts aimed to finally deliver a high quality product.

QA Manual · Paynet

Mai 2021 - Februarie 2022 · 10 luni

Testing and error documentation of web and mobile applications. Project management and collaboration with product owners. Creating documentation about the developed and tested product.

Expert criminalist · Centrul tehnico-criminalistic și expertize judiciare

Septembrie 2007 - Martie 2016 · 8 ani 6 luni

Carrying out forensic expertise in the field of:

- phallus in documents (documents, stamp impressions)
- dactyloscopy (papillary fingerprint examination)
- traceology (objects, shoe traces, etc.)

Studii: Superioare

Academia "Stefan cel Mare si Sfint"

Absolvit în: 2007

Facultatea: Jurisprudenta

Specialitatea: Expert criminalist
