Experiența profesională

Technician engineer · Esempla

Ianuarie 2023 - Prezent · 1 an 11 luni

This job gave me deep knowledge in the field of network technologies. My task list included customer support, equipment installation trips, troubleshooting software issues.

System administrator assistant · RTI

August 2018 - Iunie 2022 · 3 ani 11 luni

My role involved in the day-to-day operation of technology applications and equipment. I provided desk-side and remote-side assistance in resolving technical support issues to customers for Point-of-Sale software and hardware. I performed installations, repairs, upgrades, backups, and other maintenance tasks. Also, my duties included maintenance and support of all client computers (servers, desktops, cash registers, and laptops), databases, network, separate printers and all other IT equipment, depending on support contracts. I have worked with equipment such as Datalogic, Citizen, Dibal, Mettler Toledo, Zebra, Sunlux, Honeywell, Wincor Nixdorf, FEC, Ingenico, Verifone and others.
