About me

Self-taught Front-End developer with a proven track record in crafting robust web soutions from concept to deployment. Combines strong front-end expertise with creative problem-solving abilities to deliver engaging user experiences. Demonstrates exceptional initiative in mastering new technologies and implementing innovative solutions across the development stack.

Work experience

Front End Developer · Self-Employed

June 2021 - Present · 3 years 8 months

- Engineered and launched custom e-commerce solutions on Shopify and WordPress (WooCommerce), including development of bespoke theme components and implementation of Custom Post Types for enhanced functionality.

- Created responsive, performance-optimized websites from scratch using HTML5, CSS3, JavaScript, and PHP, ensuring cross-browser compatibility and optimal user experience.

- Designed and implemented professional website layouts and brand identities using Figma and Adobe Creative Suite (Photoshop, Illustrator), translating client requirements into compelling visual solutions.

- Built and customized websites across multiple CMS platforms (WordPress, Tilda, Wix, Webflow), providing end to-end solutions from initial design to deployment and maintenanceDeveloped custom theme components and templates across various platforms, demonstrating strong problem-solving skills through successful technical troubleshooting and maintenance support.

Skills: Wordpress, Shopify, HTML5, CSS3, Javascript, Tailwind, Bootstrap

Front-end Developer · AXON-Soft · Cluj-Napoca, Cluj, Romania

September 2023 - October 2023 · 1 month

- Spearheaded front-end development of a company-wide employee time management web application using TypeScript and Angular, successfully delivering a comprehensive self-management portal for scheduling and tracking time off requests.
